

Center for Healthcare Economics and Policy

FTI Consulting's Center for Healthcare Economics and Policy applies cutting-edge economics and quantitative methods to assist clients to develop and implement solutions across a wide spectrum of healthcare and life science industry activity. We customize our advanced modeling and economic analytical capabilities using extensive proprietary and public data, regulatory and policy expertise and our diverse team of PhD economists, analytic consultants and industry experts to address complex client issues.

- M&A, Antitrust & Competition**
- Disputes**
- Policy & Regulation**
- Health Economics and Outcomes Research & Market Access**
- Strategic & Transformational Modeling**
- Community & Economic Impact**

Our People

The Center's experts include PhD economists with specialized health economics expertise across many applications with private and public sector experience, supported by analytic consultants and expert modelers. We benefit from an Advisory Board of industry leaders and the ability to draw on practitioners and professionals from across FTI Consulting's strong multi-disciplinary practices.

Our Expertise

The Center specializes in economically-sound, evidence-based analytics applied to complex issues of healthcare delivery and transformative change, competition, disputes, market access, and regulatory change for a wide range of clients. We use causation analysis and predictive modeling accounting for uncertainty and risks to quantify effects of actual or proposed changes across healthcare and life sciences industry. These frame opportunities proactively to optimize resources in a practice international in scope with tested applications and locally relevant data to yield strategies and solutions informed by sound economic principles.
